This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

SCENES

ACT I. A Public Square in Beaufleur. Morning.

ACT II. A Garden Party at Castle Beaujolais. Evening.

The Story

The action takes place on an imaginary island near the coast of Normandy, ruled by the DUKE OF BEAUJOLAIS. The principal town is BEAUFLEUR, where a spring festival is in progress when the story begins.

The appearance on the scene of an American yachting party causes considerable excitement in the village, and the DUKE, with the COUNTESS MARIE, his betrothed, gives a cordial welcome to the visitors and arranges a garden party in their honor. JOHN BENDER, the host of the American party, is accompanied by his sister, MRS. JESSUP (affectionately called "AUNT SARAH" by all), a widow of strong convictions, who chaperons the young guests, PHILLIS, daughter of BENDER; her friend, BELLE, and LARRY and TONY, two vivacious young Americans.

The visitors are charmed with the animated and picturesque scene and enter into the spirit of festivity that prevails, especially the young men, who find YVONNE and SUSETTE, pretty village girls, so attractive that they rather neglect their traveling companions, PHILLIS and BELLE. BENDER finds a great deal to interest him, and being a gallant gentleman, he quite captivates the COUNTESS, an impressionable spinster of uncertain age, whose betrothal to the DUKE is regarded as a political matter. The DUKE, meanwhile, is much attracted by AUNT SARAH, whose conservatism, however, is proof against sudden attachments, and she and her young charges, PHILLIS and BELLE, view with some disfavor the apparent stampede of the gentlemen of their party to the allurement of new scenes and faces. Even HARKINS, the serious English valet, surrenders to the undeniable charms of FANTINE, the COUNTESS'S capable maid.

It is suggested that the proposed garden party take the form of a masquerade and the first act ends with the understanding that all, including the villagers, shall assemble that evening at CASTLE BEAUJOLAIS. The DUKE, a simple-minded gentleman, has attempted to enlist the favor of BENDER in his projected alliance with AUNT SARAH; the COUNTESS makes no secret of her sudden interest in the gallant BENDER, who, however, is disposed to be cautious. PHILLIS and BELLE have seized the opportunity afforded by the garden party to carry out a plan for turning the tables on LARRY and TONY as a punishment for their neglect.

Act II finds the garden party in full swing at the Castle. The guests have consulted their individual fancy in the matter of costumes, and masks are used further to conceal identity. BENDER has been persuaded, much against his judgment, to appear in what is supposed by his advisers to be a characteristic costume, and in which he is far from happy. It soon develops that PHILLIS and BELLE have exchanged dresses with YVONNE and SUSETTE, a transaction which subsequently involves LARRY and TONY in considerable difficulty through their mistaking PHILLIS and BELLE for the village girls, with disconcerting results. AUNT SARAH has been prevailed upon to add to the confusion by exchanging apparel with the COUNTESS, who soon makes it clear that she has no intention of allowing anybody but herself to become the Duchess of Beaujolais.

As AUNT SARAH has no aspirations in that direction, it turns out a simple matter so to commit the unsuspecting DUKE that he finds it advisable to make the best of matters as they were. LARRY and TONY are contrite enough to win forgiveness from PHILLIS and BELLE and all ends in the best of good feeling.

BELLS OF BEAUJOLAIS

An Operetta in Two Acts

MIXED VOICES

Libretto by DAVID STEVENS — Music by LOUIS ADOLPHE COERNE

There are fourteen principals and an "elastic" chorus of from twenty-five to one hundred singers, according to circumstances.

The music comprises twenty numbers, most of them with chorus and many with dances. The story is amusing and all the requirements are within the scope of High School pupils.

Time of Performance, two hours — *Piano-Vocal Score $1.00; Libretto $1.00*

C. C. BIRCHARD & CO., BOSTON 17

FAUST

In a Prologue and Three Acts

MIXED VOICES

Abridged and Adapted from the original score by HARVEY W. LOOMIS, with text by FREDERIC MANLEY and DAVID STEVENS. Either for stage or choral use.

Simplified action and setting makes this edition entirely practical for non-professionals. Dialogue takes the place of the recitative. When given without action the dialogue may be read by one person. The story is not changed in its essentials and the score includes all the music that has become famous and beloved.

Time of Performance, one hour forty-five minutes — *Piano-Vocal Score $1.75; Vocal Parts $ .30*

C. C. BIRCHARD & CO., BOSTON 17

CONTEST OF THE NATIONS

Operetta with Dances, in One Act

For Solo and Chorus, Mixed Voices (upper Grammar, High Schools and Amateur Societies). Text by FREDERICK H. MARTENS; music by N. CLIFFORD PAGE.

The CONTEST OF THE NATIONS is intended for indoor production and is also strikingly adaptable for open-air Pageants. It can be given with or without dialogue and with anywhere from fifty to five thousand in the chorus. It presents about twenty nations in friendly rivalry of song and dance.

Time of Performance, one hour — *Piano-Vocal Score $1.00; Vocal Parts $ .30*

C. C. BIRCHARD & CO., BOSTON 17

ALL AT SEA

A Gilbert & Sullivan Dream — MIXED VOICES — Operetta in Two Acts

Libretto by DAVID STEVENS, with songs and choruses from H. M. S. PINAFORE; PIRATES of PENZANCE; PATIENCE; IOLANTHE and THE MIKADO, arranged and adapted for this purpose by HARVEY WORTHINGTON LOOMIS.

A delightful new story involving twenty-five of the best-known characters in the operettas named above, in which the good ship PINAFORE undertakes to capture the PIRATES OF PENZANCE.

Twenty-one of the beautiful Gilbert & Sullivan songs, related to the new situations and bound together by events which utilize the familiar characteristics of the various personages here reintroduced. Simple to stage with large or small chorus as desired.

Time of Performance, about one hour and three quarters — *Piano-Vocal Score $1.25; Libretto $1.00*

Masterpieces of Dramatic Music

(5 to 10 Minute Selections from the Operas.)

We take pleasure in announcing under this general title the most popular and effective pages of the following Operas, carefully edited and arranged for use in Schools, Choral Societies, Etc.

AÏDA	MARTHA
IL TROVATORE	FAUST
LA TRAVIATA	LOHENGRIN
PATIENCE	ORPHEUS

Certain features of this edition call for emphasis.

1. The scrupulous care of the editors, all musicians of standing, to avoid the questionable practice of "over-adapting" the music of masters to the limitations of inexperienced singers.

2. Their effort to relate the selected pieces to the story of the several operas and their dramatic action to the fullest extent possible in publications of this nature.

3. In addition to the most familiar and appealing concerted numbers of these operas, the present selection includes arias, recitative and dialogue.

4. A serious effort has been made, we believe, for the first time, to improve the English texts of the numbers selected. The editors have long been aware that the demand for Grand Opera in the vernacular is growing more widespread and insistent, and they are convinced that the day is not far distant when English will take its rightful and honorable place in dramatic music as it has done for so long in the poetic drama. They do not look, however, to professional circles mainly for this desideratum. Their hope is rather in the schools, where the tastes of the future operatic public are now being formed. Let English once become associated in their minds and memory as a worthy concomitant of great dramatic music and we shall soon hear the last of that fallacious objection concerning the unsingable nature of our Mother Tongue. In justice to the foreign impresario and imported singer, it must be said that the existing translations of the various libretti are entirely unworthy. They give the singer no chance for either dramatic interpretation or vocal effectiveness, and as literature they are "impossible."

5. In the selections now offered, the editors have kept in mind the importance of words as the tonal colors in which singers must work and they have done their utmost to make their English rendition as vocally desirable and as dramatically interesting as the original texts.
